

APPLICATION INSTRUCTIONS

BEFORE GETTING STARTED

1. Review our [funding opportunities](#) and carefully read the RFP for which you're applying.
2. Read the [Application and Funding Policies](#).
3. Log in or create an account using the [ADDF Funding Portal](#) to begin the application process. Please note, new applicants should allow 1-2 business days for registration.

REVIEW PROCESS AND TIMELINE

LETTER OF INTENT

Applicants should submit a Letter of Intent (LOI) through the [ADDF Funding Portal](#).

1. Fill in contact and project information (e.g. title, duration, amount requested).
2. The LOI includes brief descriptions of the following:
 - Scientific Rationale and Background: Focus this section on how the proposed drug target or biomarker relates to the disease process, and how your approach compares with others in development for the same or similar target/mode of action or biomarker modality (300 words maximum)
 - Specific Aims: List specific aims and/or milestones. For clinical trials, briefly describe trial design, including population and endpoints. (300 words maximum)
 - Summary of Key Supporting Data: Provide a brief summary of key preclinical (*in vitro* and *in vivo*) or clinical data that justify the proposed study (300 words maximum)
 - For resubmissions only: A written point-by-point response to each of the reviewers' comments is required. Upload as "Applicant Response to Reviewers".
