

## Call for Nominations

The Gruber Foundation invites nominations on behalf of individuals whose achievements in Cosmology, Genetics, or Neuroscience would make them suitable candidates for recognition through the 2022 Gruber International Prize Program. Each prize, which is accompanied by a \$500,000 unrestricted monetary award, is designed both to recognize groundbreaking work in each field and to inspire additional efforts that effect fundamental shifts in knowledge and culture. Recipients are selected by a committee of distinguished experts in each field.

Nominations must be completed and submitted online. Please go to [http://gruber.yale.edu/prize-nominations \(/prize-nominations\)](http://gruber.yale.edu/prize-nominations (/prize-nominations)) for complete details and access to forms.

Further information on the Foundation and the individual Prizes is available at [www.gruber.yale.edu \(http://www.gruber.yale.edu/\)](http://www.gruber.yale.edu (http://www.gruber.yale.edu/))

The deadline for nominations is December 15, 2021
