

FUNDING OPPORTUNITIES

The ADDF provides funding to academic centers and biotechs from around the world that are advancing therapeutic and biomarker development for Alzheimer's and related dementias.

NOTE: This funding is provided through mission-related investments that require return on investment based upon scientific and/or business milestones (see [Our Research Strategy](#) for more information). We have dedicated our funding to several key areas:

- Translational research to develop new drugs and build preclinical evidence
- IND-enabling studies and early-stage clinical trials for novel and repurposed drugs
- Development and validation of plasma, CSF, neuroimaging and digital biomarkers
- Epidemiological studies and comparative effectiveness research

Applications are reviewed throughout the year through our core programs. Check back regularly for additional joint funding opportunities with our partners in non-profits, government, and industry.

CORE FUNDING PROGRAMS

NOW ACCEPTING APPLICATIONS

Upcoming 2022 deadlines

Must be received by 5:00 pm ET on the deadline date.

Letter of Intent	Letter of Intent	Letter of Intent
February 4, 2022	May 20, 2022	September 30, 2022
Invited Full Proposal	Invited Full Proposal	Invited Full Proposal
April 8, 2022	July 22, 2022	December 2, 2022
